ABC EVENING NEWS TO BE CAPTIONED

WGBH-TV, Boston's Public Television station, will present the ABC Evening News captioned for hearing impaired viewers on a daily basis at 11 p.m. beginning December 3. The program will be carried locally by WETA-TV, Channel 26.

By special arrangement with the ABC Television Network, WGBH will tape the Evening News at 6 p.m.; and a team of caption writers in Boston will produce captions in time to present the full broadcast at 11 p.m.

PROJECT "TOE-HOLD" MATERIALS AVAILABLE

Three of six volumes of materials for use in the teaching of communication or language skills to hearing impaired adults, who have little or no knowledge of English, have been developed by Virginia McKinney of Photo-School Films, Inc. with the support of the Center for Continuing Education. The Center's support has made it possible for the materials to be completed and packaged into individual units.

Photo-School Films, a non-profit corporation located in Los Angeles, was established by Ms. McKinney in 1966. Her work with literacy materials began in 1969. These materials, which have been successfully tested with young deaf students and multiply-handicapped deaf adults, will be used jointly by the Center for Continuing Education and Photo-School Films, Inc.

Will, the only American attending the meetings, will join representatives from Italy, Israel, Poland, England and the Soviet Union.

While in Europe, he also plans to visit schools for the deaf in Denmark and England, especially the Northern Counties School in Newcastle-upon-Tyne, England, whose teachers spent several weeks at Gallaudet last summer in prepar-
